

Sustainability in Action

Our Environmental Policy

Republic Services is dedicated to partnering with customers to create a more sustainable world. Through landfill and fleet innovations, recycling and circularity of key materials, and renewable energy production, we are committed to environmentally responsible operations that increase efficiency and help our customers meet their goals.

- ✓ We are committed to pollution prevention and continuously improving our environmental performance by providing safe, environmentally responsible solutions.
- ✓ Exercising the utmost responsibility in our operations, including fleet, buildings, landfill technology, maintenance, engineering, and our day-to-day activities, we strive to operate in an environmentally friendly manner to minimize impacts to air, water and land.
- ✓ Recognizing our responsibility and opportunity in managing the nation's waste, we develop innovative products and services to capture value and energy from materials in the waste stream, while minimizing their environmental impact.
- ✓ Our commitment extends to the selection and ongoing evaluation of environmentally responsible suppliers, service providers, and contractors.
- ✓ These commitments are guided by the elements of our sustainability platform: **Safety, Talent, Climate Leadership and Communities.**

We believe it is imperative for us to reduce emissions and achieve greater circularity with the materials we handle for our customers to help preserve the environment now and for future generations.
